**HCCF partners with HHF for United Way project**

The Hancock County Community Foundation (HCCF) recently partnered with the Hancock Health Foundation to award a grant of \$2,490.08 to United Way of Central Indiana for a Hancock County Community Services Guide. This guide is designed to be a general community directory of health and human services, as well as a resource for people in need and those who help them.

The updated guide will be released later this year. The guide was last updated and printed in 2015.

The mission of United Way of Central Indiana is to fight for the education, financial stability, health and basic needs of every person in every community in Central Indiana.

*HCCF provides philanthropic leadership by encouraging giving, learning, community pride and civic engagement. Working with caring individuals, families, and organizations to create or grow existing permanent endowment funds is critical to the organization's mission. These funds generate income that is distributed in the form of grants and scholarships to enrich and enhance life in Hancock County, as well as support the donor's favorite charitable causes, both at home and afar forever. HCCF has granted more than \$14 million since its inception in 1992.*
